# The Temple of Solomon

## A Complete 3D Reconstruction

Based on historical sources, accurate measurements and archaeological assessments, a complete 3D model of the Temple was constructed. This was accomplished in numerous precisely coordinated steps: from architectural modelling through material design, lighting, camera work and animation, to rendering, compositing, video editing and sound design.

Each of these steps required specialised tools, technical expertise and the involvement of experienced IT professionals. Historical accuracy was ensured through the expert guidance of **Dr. David Jeselsohn**, whose scholarship contributed substantially to the reliability of the presentation.

The result is an independent, mosaic-like work that makes the vision of the Temple visible through modern technology while remaining faithful to Jewish tradition.

# Historical Overview (according to Chasal / Seder Olam)

**1** | –3758 | Adam & Eve | First sacrifice. Beginning of the sacrificial tradition.

**1948** | –1810 | Abraham | Altars at several locations. Binding of Isaac on Mount Moriah.

**2048** | –1710 | Isaac | Continuity of sacrifice and prayer. Moriah remains a holy site.

**2108** | –1650 | Jacob | Continuity of sacrifice and prayer. Moriah remains a holy site.

**2448** | –1310 | Moses | Giving of the Tablets of the Covenant at Mount Sinai.

**2449** | –1309 | Mishkan | Construction of the Mishkan (Tabernacle).

**2502** | –1256 | Shiloh | Location of the Mishkan.

**2871** | –887 | Shiloh | Destruction after 369 years.

**2871** | –887 | Nob | Mishkan location during the time of Saul and David, a few years.

**2928** | –830 | Givon | Location of the Mishkan at end of David's reign.

**2928** | –830 | Solomon (10th c., per current knowledge*) | Construction of the First Temple, 7 years.

**2935** | –823 | Solomon | Completion of the First Temple.

**3338** | –420 (–587/6 per current knowledge*) | Solomon | Destruction after 410 years.

**3408** | –350 (–520 per current knowledge*) | Zerubbabel | Second Temple, modest reconstruction, 420 years.

**3742** | –16 | Herod | Herodian rebuilding.

**3743** | –15 | Herod | Heichal completed.

**3787** | 29 | Roman Empire | Completion of the Temple.

**3828** | 70 | Roman Empire | Destruction of the Herodian Temple.

**See the explanation on the next page.*

# Notes

## Unit of Measurement: Cubit

All measurements in cubits were uniformly calculated at 52 cm per cubit. The basis is the halachic definition of the cubit as six *tefachim* according to Rambam, *Hilchot Klei haMikdash* 17:10. One *tefach* is set at 8.75 cm. Six *tefachim* yield 52.5 cm; all calculations were rounded to 52 cm.

## Unit of Measurement: Bat

The volume calculation follows the halachic ratio: 1 *Bat* = 10 *Efa* = 30 *Seah*. Approximately 1 *Bat* ≈ 11 to 12.5 litres.

## Books of Moses

**Bereshit** Genesis – Book of Moses

**Shemot** Exodus – Book of Moses

**Vayikra** Leviticus – Book of Moses

**Bamidbar** Numbers – Book of Moses

**Devarim** Deuteronomy – Book of Moses

## Prophets

**Shmuel Alef** Samuel 1

**Shmuel Bet** Samuel 2

**Melachim Alef** First Book of Kings

**Melachim Bet** Second Book of Kings

## Hagiographa – Ketuvim

**Divrei haYamim Alef** Chronicles 1

**Divrei haYamim Bet** Chronicles 2

# Scene 1 – Jerusalem Today / Mount Moriah – The Site of the Sanctuary

# Scene 1 – The Dome of the Rock – Even haShetiyah – beneath the Golden Dome

Dome of the Rock (limestone), Even haShetiyah

## Detailed Information

*In Bereshit – Chapter 22, Verses 1–2:*

"And it came to pass after these things that God – HaShem – tested Abraham and said to him: Take your son, your only one, whom you love, Isaac, and go to the land of Moriah, and offer him there as a burnt offering on one of the mountains that I will tell you."

This mountain is called in verse 14 'Adonai yireh' – 'HaShem will see'. According to tradition, this was the same site on which the Temple was later built.

*In Divrei haYamim Bet – Chapter 3, Verse 1:*

"And Solomon began to build the House of the Lord in Jerusalem on Mount Moriah, where the Lord had appeared to his father David, at the place that David had prepared on the threshing floor of Ornan the Jebusite."

The connection to David is described in Shmuel Bet – Chapter 24, Verses 18–25: David purchased the threshing floor of Aravna for fifty shekels of silver and offered burnt offerings there. This threshing floor later became the site of the altar in the Temple.

According to *Midrash Bereshit Rabbah* Chapter 12, Verse 9: 'From Zion the world was founded.' The *Even haShetiyah* – the Foundation Stone – is the point where heaven and earth touch – *Makom haMizbeach*. Rambam – *Hilchot Beit haBechira* Chapter 2 – summarises that Mount Moriah has been the central site of divine worship since the creation of the world.

# Scene 2 – The Solomon Temple of That Time

## Detailed Information

*In Melachim Alef – Chapter 6, Verse 1:*

"In the four hundred and eightieth year after the children of Israel came out of Egypt, in the fourth year of Solomon's reign over Israel, in the month of Ziv, he began to build the House of the Lord."

According to Jewish tradition this took place in the year 2928 from creation, approximately 900 years BCE. The month of Ziv (Iyar) means 'splendour' or 'radiance' and falls in today's calendar roughly in April–May.

The foundation is laid in *Shemot* 25:8: 'And they shall make me a sanctuary, that I may dwell among them.' In *Shmuel Bet* 7:12–13, HaShem promised David that his son would build the Temple. According to *Melachim Alef* 5:15–26, Solomon obtained cedar wood from Lebanon via King Hiram of Tyre. Verse 7 notes: 'No hammer, axe or iron tool was heard; for the stones were already fully dressed at the quarry.' The Talmud – *Sanhedrin 20b* – explains iron symbolises weapons, while the Temple brings peace. The Temple was completed after seven years in the year 2935.

# Scene 3 – The First Gate to the Outer Courtyard – Sha'ar haChitzon

## Detailed Information

*In Divrei haYamim Bet – Chapter 4, Verse 9:*

"And Solomon made the great outer courtyard and the courtyard of the House Chatzer haChitzon, and the gates to them he overlaid with bronze."

The sacred areas were separated in graduated form:

- The outer courtyard (*Chatzer haChitzon*) – the area the people of Israel could enter
- The inner courtyard (*Chatzer haKohanim*) – the area of the priests
- The sanctuary (*Beit haMikdash*) – with *Heichal* and *Dvir* (Holy of Holies)

**Wall**

Height: approx. 20–22 cubits, 10.5–11.55 m

**Gate**

Height: 20 cubits, 10.5 m

Width: 10 cubits, 5.25 m

The gates were made of cedar wood overlaid with bronze – *nechoshet*, establishing a conscious connection between the desert Tabernacle and Solomon's Temple.

# Scene 4 – The Courtyard Wall – Chomat haAzara

## Detailed Information

*In Melachim Alef – Chapter 6, Verse 36:*

"And he built the inner courtyard with three courses of dressed stone and one course of cedar beams."

The Mishnah – *Middot* Chapter 2, Verse 3 – transmits: the wall of the Azara was forty cubits (21 m) high, with three gates – one to the south, one to the north, one to the east. The gates:

- *Sha'ar haMizrach* – East Gate – the Nicanor Gate
- *Sha'ar haDarom* – South Gate – Gate of Fuel, Gate of Firstfruits, Water Gate
- *Sha'ar haZafon* – North Gate – Gate of Yechoniah, Sacrifice Gate, Women's Gate

The Talmud – *Tamid 30b* – describes how the first ray of morning sunlight fell through the East Gate and illuminated the altar, signalling the start of the daily service. Only priests and certain Levites were permitted inside the *Azara*; the people remained in the outer courtyard.

# Scene 5 – The Second Gate to the Priests' Courtyard – Azara

## Detailed Information

*In Divrei haYamim Bet – Chapter 4, Verse 9:*

"And he made the inner courtyard of the priests and the great courtyard and the gate panels, and he overlaid them with bronze."

This inner courtyard – *Azara* – formed the centre of the Temple complex. The name *Azara* is derived in the Talmud (*Arachin 11a*) from *Ezra* – help – because whoever entered found spiritual help and purification.

**Azara**

Length: 187 cubits, 98 m

Width: 135 cubits, 71 m

In the eastern part stood the burnt-offering altar – *Mizbeach haOlah* – on which the daily *Korban Tamid* was brought. Next to the altar stood the *Yam haNechoshet* – the Brazen Sea – on twelve bronze oxen, and ten washing basins on artfully crafted wagons.

# Scene 6 – The Complete Temple Complex – Beit haMikdash (House of Holiness)

## Detailed Information

*In Melachim Alef – Chapter 6, Verses 2–3:*

"The house that Solomon built for the Lord was sixty cubits long, twenty cubits wide and thirty cubits high. The vestibule – *Ulam* – before the house was twenty cubits long and ten cubits deep."

In the Holy of Holies stood the Ark of the Covenant – *Aron haBrit* – over which the wings of the Cherubim were spread. The floor, walls and ceiling were overlaid with gold from Parvaim. The Temple was oriented east to west, as prescribed for the Mishkan in *Shemot* 26.

**Beit haMikdash**

Length: 60 cubits, 31.5 m

Width: 30 cubits, 15.75 m

Height: 30 cubits, 15.75 m

**Vestibule – Ulam**

Length: 20 cubits, 10.5 m

Depth: 10 cubits, 5.25 m

Height: 120 cubits, 63 m

The Talmud – *Bava Batra 25a* – teaches that the *Shechina* dwells in the west, which is why the Holy of Holies lay in the western part. Entry from east to west symbolised the journey from the light of the world to the innermost light of God's presence.

# Scene 7 – The Burnt-Offering Altar – Mizbeach haOlah

## Detailed Information

The *Mizbeach haOlah* stood in the eastern area of the inner courtyard. King Solomon enlarged the model from the Mishkan, making the altar permanently of stone and bronze, as in *Divrei haYamim Bet* 4:1: 'twenty cubits long, twenty cubits wide and ten cubits high.'

At the four corners were horns – *Keranot* – smeared with the blood of sacrifices (*Vayikra* 4:7). There was no staircase but a ramp – *Kevesh* – up which the priests walked.

**Burnt-Offering Altar (Mizbeach haOlah)**

Base: 20x20 cubits, 10.5x10.5 m

Height: 10 cubits, 5.25 m

Ramp (Kevesh): 32 cubits, 16.8 m long

Horns (Keranot): 1 cubit, 0.52 m high

*Vayikra* 6:6: 'A perpetual fire shall burn on the altar; it shall not go out.' The Talmud – *Yoma 21a* – counts the smoke rising straight to heaven among the ten enduring miracles of the Temple.

# Scene 8 – The Ten Washing Basins on Bronze Wagons – haKiyorim al haMechonot

## Detailed Information

*In Melachim Alef – Chapter 7, Verses 27–30:*

"And he made ten stands of bronze, four cubits long, four cubits wide and three cubits high. On the stands were decorations of lions, oxen and cherubim."

*In Divrei haYamim Bet – Chapter 4, Verse 6:*

"And he made ten basins, five on the right (south) side and five on the left (north) side of Solomon's Temple in the priests' courtyard, for rinsing the sacrificial pieces; but the great sea was for the priests to wash themselves."

**Stands (Mechonot)**

4 cubits × 4 cubits × 3 cubits (2.1 × 2.1 × 1.6 m)

**Wheels**

Diameter: 1.5 cubits, 0.79 m

**Basins (Kiyor)**

Capacity: 40 Bat, approx. 450–500 litres

All were made by Hiram ben Isha Almana, chief master of bronze casting (*Melachim Alef* 7:13–14).

# Scene 9 – The Great Brazen Sea – Yam haNechoshet

## Detailed Information

*In Melachim Alef – Chapter 7, Verses 23–26:*

"And he made the sea – cast from bronze – ten cubits from rim to rim, round on all sides, five cubits high, and a line of thirty cubits encircled it. And it stood on twelve oxen, three facing north, three facing west, three facing south and three facing east."

The sea was placed on the right (east, south) side of the Temple. It held 3,000 *Bat* of water. The twelve oxen symbolised the twelve tribes of Israel.

**Brazen Sea (Yam haNechoshet)**

Diameter: 10 cubits, 5.25 m

Height: 5 cubits, 2.6 m

Circumference: 30 cubits, 15.75 m

Capacity: 3,000 Bat, approx. 60,000 litres

**Oxen (Bakarim)**

Height: 4 cubits, approx. 2.1 m

The basin served the ritual washing of the priests as prescribed in *Shemot* 30:18–21. Rambam describes that its water was distributed through valves and channels.

# Scene 10 – The Two Pillars Jachin and Boaz – Amudei Jachin u'Voaz

Archaeological / Numismatic: Silver Tridrachm of Bar Kokhba, Judaea, 134/5 CE

## Detailed Information

*In Melachim Alef – Chapter 7, Verses 15–22:*

"And he cast two pillars of bronze, eighteen cubits high, and a capital of bronze on each pillar, five cubits high … He named the right pillar Jachin – He will establish – and the left pillar Boaz – in him is strength."

**Pillars (ha-Amudim)**

Pillar height: 18 cubits, 9.45 m

Capital height: 5 cubits, 2.63 m

Total height: 23 cubits, 12.08 m

Diameter: 4 cubits, 2.1 m

The pillars were non-load-bearing – they 'stood freely' before the house – purely symbolic as a marking threshold. The *Midrash Shemot Rabbah* 35:5 interprets the pomegranate ornaments as a symbol of the abundance of *mitzvot*.

# Scene 11 – The Gate to the Vestibule – Sha'ar haUlam

## Detailed Information

The Tanakh mentions no steps to the Temple. Access to the *Ulam* is described without height specifications; all known steps belong to the Second Temple. Since the Temple stood on Mount Moriah with its elevation differences, an ascending approach – steps or a ramp – is architecturally inferred.

*In Melachim Alef – Chapter 6, Verse 33:*

"And he made for the entrance to the vestibule doorframes of olive wood, foursquare in form."

The doors were made of solid olive wood overlaid with fine gold leaf, engraved with ornaments of palms, flowers and Cherubim. Radak explains the gate was over 20 cubits (10.5 m) high and more than 10 m wide – a work of overwhelming size and beauty.

# Scene 12 – The Vestibule – Ulam

## Detailed Information

*In Melachim Alef – Chapter 6, Verse 3:*

"And the hall before the Temple house was twenty cubits long and ten cubits deep."

*In Divrei haYamim Bet – Chapter 3, Verse 4:*

"The vestibule at the front of the house was twenty cubits long and its height a hundred and twenty cubits, and he overlaid it inside with pure gold."

**Vestibule (Ulam)**

Length: 20 cubits, 10.5 m

Depth: 10 cubits, 5.25 m

Height: 120 cubits, 63 m

The inner walls were completely covered with gold, adorned with *Cherubim*, palms and opened flowers. The *Ulam* was where the *Kohen Gadol* gathered himself before entering the sanctuary – a place of inner concentration and sanctification, not of sacrifice.

# Scene 13 – The Sanctuary – Heichal

Archaeological / Numismatic: Menorah Coin of Mattityah Antigonus, Jerusalem, 37 BCE

## Detailed Information

*In Melachim Alef – Chapter 6, Verses 2 and 17:*

"The house was sixty cubits long, twenty cubits wide and thirty cubits high. Forty cubits comprised the Heichal, which lay before the Holy of Holies."

**Sanctuary (Heichal)**

Length: 40 cubits, 20.8 m

Width: 20 cubits, 10.5 m

Height: 30 cubits, 15.75 m

The walls, floor and ceiling were completely overlaid with gold from Parvaim. In the Heichal stood the golden menorahs, the showbread tables, and the golden incense altar. The Midrasch explains the Temple's windows were 'narrow inside, wide outside', so the light streamed outward – Israel's light was to illuminate the world.

# Scene 14 – The Golden Menorahs – Menorot

Archaeological / Numismatic: Roman bronze lamp with Menorah as handle, about 200 CE

## Detailed Information

*In Melachim Alef – Chapter 7, Verse 49:*

"And the menorahs of pure gold stood before the inner sanctuary, five to the right and five to the left." According to Talmud *Menachot 98b* and Rambam, eleven menorahs stood in the Heichal – ten made by Solomon and one from Moses' Mishkan. Rambam: 'Solomon made ten menorahs, all for ornament; but only the Menorah of Moses burned continuously.'

Each Menorah was approx. 3.5 cubits (1.8 m) high, made from a single piece of pure gold (*Mikshah Achat*), with seven arms decorated with cups, knobs and flowers. The oil was the purest olive oil – *Shemen Zayit Zach Katit laMa'or*. The Menorah was the symbol of divine wisdom: as light branches into seven arms from one source, so all knowledge derives from the Torah.

# Scene 15 – The Showbread Tables – Shulchanot Lechem haPanim

Archaeological / Numismatic: Silver Tridrachm of Bar Kokhba, Judaea, 134/5 CE

## Detailed Information

*In Divrei haYamim Bet – Chapter 4, Verse 8:*

"He made ten tables and placed them in the Temple, five on the right side and five on the left."

In the Talmud – *Menachot 98b*: eleven tables stood in the Heichal – ten of Solomon's and Moses' table in the centre, which alone bore the *Lechem haPanim*. Twelve loaves lay in two rows of six, renewed every Sabbath (*Vayikra* 24:5–8). The Talmud says: 'When the loaves were taken off after seven days, they were as fresh as when placed.' The table (north) and the Menorah (south) symbolise the connection between material blessing and spiritual light.

# Scene 16 – The Golden Incense Altar – Mizbeach haKetoret

Archaeological / Numismatic: Roman bronze altar, about 200 CE

## Detailed Information

*In Shemot – Chapter 30, Verses 1–10:*

"And you shall make an altar for burning incense, of acacia wood … one cubit long and one cubit wide, two cubits high; and you shall overlay it with pure gold … a perpetual incense before the Lord for all generations."

**Incense Altar (Mizbeach haKetoret)**

Length: 1 cubit, 0.52 m

Width: 1 cubit, 0.52 m

Height: 2 cubits, 1.05 m

The *Ketoret* consisted of eleven secret ingredients whose exact mixture only the Avtinas family knew (Talmud – *Keritot 6a*): balsam, onycha, galbanum, frankincense, myrrh, cassia, spikenard, saffron, costus, cinnamon and sugar cane. Together they formed a perfect and holy fragrance rising in a perfectly straight column to heaven. The Mishnah – *Yoma 4:5* – says the *Ketoret* was the offering 'most beloved by HaShem', because it served not nourishment but the spirit.

# Scene 17 – The Golden Door to the Holy of Holies – Sha'ar Kodesh haKodashim

## Detailed Information

*In Melachim Alef – Chapter 6, Verses 31–32:*

"And he made for the entrance to the inner sanctuary doors of olive wood; the doorframe was pentagonal. And he carved on them cherubim, palms and open flowers and overlaid them with gold."

The doors were of olive wood – *Etz Zayit*, the wood of peace – completely overlaid with pure gold. Behind them hung the curtain – the *Parochet*. Only the *Kohen Gadol* was permitted to pass through once a year, on Yom Kippur – barefoot, alone, in awe before the *Shechina*.

# Scene 18 – The Curtain – Parochet

## Detailed Information

*In Divrei haYamim Bet – Chapter 3, Verse 14:*

"And he made the curtain of blue purple, red purple, crimson and fine linen; and he made cherubim on it."

The *Parochet* separated the *Heichal* from the *Kodesh haKodashim*. It was woven from four sacred colours:

- *Techelet* – sky blue, symbol of heaven and divine presence
- *Argaman* – purple, sign of royal dignity
- *Tola'at Shani* – crimson red, emblem of sacrifice and purification
- *Shesh Meshuzar* – white twisted linen, symbol of purity and light

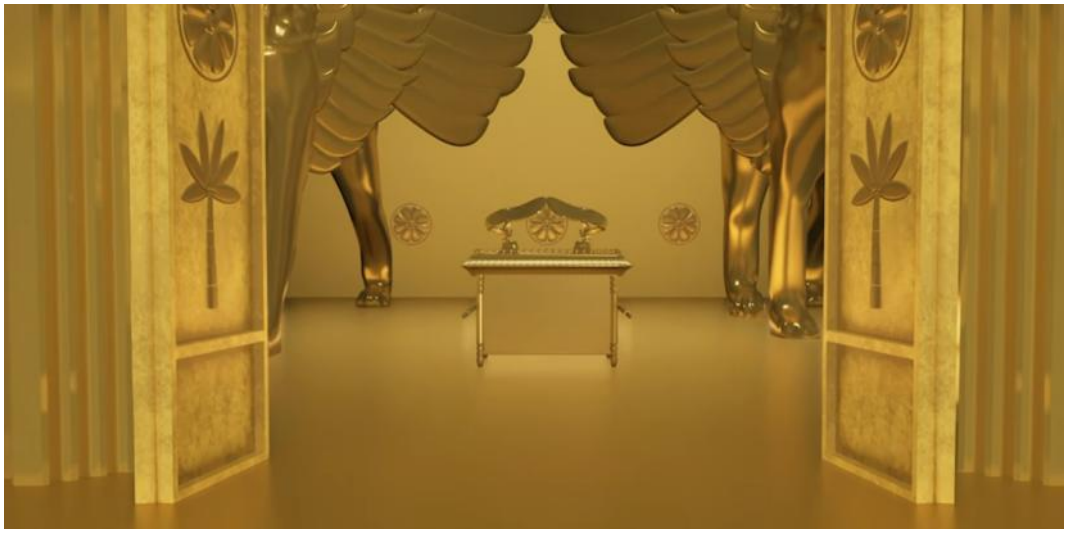
The fabric consisted of 72 braided strands, each twisted from 24 individual threads (*Chagiga 13b; Yoma 54a*). It was so dense no light passed through, yet it shimmered in the golden lamplight as if alive from within.

**Curtain (Parochet)**

Height: 20 cubits, 10.5 m

Width: 10 cubits, 5.25 m

# Scene 19 – The Holy of Holies – Kodesh haKodashim



## Detailed Information

*In Melachim Alef – Chapter 6, Verses 16–20:*

"And the inner sanctuary was twenty cubits long, twenty cubits wide and twenty cubits high, and he overlaid it with pure gold." Six hundred talents of pure gold were used; even the nails were of gold.

**Holy of Holies (Kodesh haKodashim)**

Length: 20 cubits, 10.5 m

Width: 20 cubits, 10.5 m

Height: 20 cubits, 10.5 m

A room of perfect symmetry – no windows, no earthly light. The room was filled with the *Or haShechina* – the light of the divine presence. In its midst stood the Ark of the Covenant, the golden cover plate – *Kaporet* – and the two Cherubim whose wings spanned the full width of the room, touching in the middle. The Talmud – *Yoma 21b*: 'The Ark took up no space' – the divine presence was beyond nature.

Under the Ark lay the *Even haShetiyah*, the foundation stone from which, the Talmud says, the world was founded. Thereby the Holy of Holies became the centre of the world.

# Scene 20 – The Two Great Golden Angels – Cherubim

Archaeological / Numismatic: South Arabian Sphinx (Cherub), bronze, about 200 CE

## Detailed Information

*In Melachim Alef 6, Verses 23–28:*

"He made two cherubim of olive wood, ten cubits high; one wing of each cherub was five cubits and the other wing five cubits … and he overlaid the cherubim with gold."

Their wings spread across the entire width of the room (ten cubits each) until they touched in the middle. The Sages described them as having 'faces like children' – *panim shel tinok* – an image of pure love between HaShem and Israel.

**Angels (Cherubim)**

Height: 10 cubits, 5.25 m

Wing length: 5 cubits, 2.6 m

Total wingspan: 20 cubits, 10.5 m

The Talmud – *Bava Batra 99a*: 'When Israel did the will of God, the Cherubim turned towards each other; when not, they turned away.' They mirrored the state of the relationship between Israel and God.

# Scene 21 – The Ark of the Covenant – Aron haBrit

## Detailed Information

The Ark was made of acacia wood (*Azei Shittim*), completely overlaid inside and outside with pure gold, enclosed by a golden wreath – *Zer Zahav Saviv*. Over it lay the golden cover plate – *Kaporet* – with two Cherubim whose faces were turned towards each other, looking downwards. HaShem spoke to Moses 'from between the two Cherubim' (*Shemot* 25:22).

**Ark of the Covenant (Aron haBrit)**

Length: 2.5 cubits, 1.31 m

Width: 1.5 cubits, 0.79 m

Height: 1.5 cubits, 0.79 m

Carrying poles: 2.5 cubits, 1.3 m long

Beside the Ark stood the jar of manna, the staff of Aaron that blossomed, and the holy anointing oil. The Talmud – *Yoma 21a*: 'The Ark took up no space' – the divine presence was beyond physical dimensions. Under the Ark lay the *Even haShetiyah* – the foundation stone from which the world was created. So the *Aron haBrit* was the heart of the Temple and the centre of the world.

# Scene 22 – The Destruction and the Silence of the Shechina

## Detailed Information

In the year 3338 from creation (586 BCE), Jerusalem fell to Babylon.

*In Melachim Bet – Chapter 25, Verses 8–9:*

"And Nebuzaradan burned the House of the Lord, the king's house and all the houses of Jerusalem; every great house he burned with fire."

On the 9th of Av the Temple stood in flames – the day Israel still observes as *Tisha b'Av*. Before the fire reached the holiest place, the *Aron haBrit* had already been hidden. The Talmud – *Yoma 53b*: 'King Josiah hid the Ark together with the Menorah, the golden table and the jar of manna' – in concealed chambers beneath the Temple Mount, preserved until the Third Temple is built.

The prophet Ezekiel saw the *Shechina* leave gradually, until it rested on the Mount of Olives (Ezekiel 11:23). HaShem accompanied Israel into exile. The promise remains: 'Arise, shine, for your light has come, and the glory of the Lord has risen upon you.' (Isaiah 60:1)

# Scene 23 – The Return of the Shechina and the Third Temple

## Detailed Information

The prophet Ezekiel saw the divine light returning (Ezekiel 43:1–5): 'And the glory of HaShem came into the house through the east gate … and the glory of HaShem filled the house.'

Rambam – *Hilchot Melachim* 11:1: 'The King Mashiach will arise and restore the kingdom of David. He will build the Temple and gather the scattered of Israel.' Then the *Aron haBrit* will appear, the Menorah of Moses will shine again, and the wings of the Cherubim will touch once more.

The Midrash (*Tanchuma, Pekudei 9*): 'The Third Temple will be built of fire – from the light that comes down from heaven.' A house that does not perish, built not of stone but of spirit. 'For from Zion shall go forth the Torah, and the word of HaShem from Jerusalem.' (Isaiah 2:3)

# Scene 24 – Closing Words

Archaeological / Numismatic: Roman goldglass from the catacombs in Rome, about 300 CE

This is the conclusion of the sacred journey: from Solomon's construction through the destruction and the exile to the promise of the return.

The Talmud – *Yoma 52b–53b*: King Josiah hid the *Aron haBrit*, the staff of Aaron and the manna on the *Har haBayit* – not lost, but preserved until the Eternal reveals his house again.

The future Temple will be built of fire and come from heaven – a house that cannot be destroyed because it consists not of stone but of the presence of HaShem. 'For from Zion shall the Torah go forth, and the word of HaShem from Jerusalem.' (Isaiah 2:3) And the world shall know: The Eternal is one, and His name is one.
